Datasheet

RS Pro Male HDMI to Female High Density D-sub 15-pin HDMI to VGA Adapter

Features:

This HDMI to VGA converter takes the HDMI input signals from Raspberry Pi and converts them into analogue output signals to allow the use of VGA monitors. The input connector is a standard HDMI Male and the output a VGA female which supports the following monitor resolutions: 1024x768, 1280x768, 1280x1024, 1366x768, 1440x900.

- The converter takes power from the HDMI source so no external power supply is required
- Suitable for use with Raspberry Pi

Specifications:

Connector A: Male HDMI
Connector B: Female High Density D-sub 15-pin
Connector A Type: HDMI
Connector B Type: VGA
Connector A Gender: Male
Connector B Gender: Female
Sheath Colour: Black
