

Raspberry Pi Enclosures

Features

- Two piece construction, base and cover, moulded in a smooth finish ABS plastic
- Base has side clips which positively locate the Raspberry Pi board into position allowing it to be operated with or without the cover in place, giving easy access to the GPIO and JTAG
- Base comes with four rubber feet and also features two screw slots to allow the enclosure to be vertically mounted
- Cover can be easily removed without the need to unplug any cables
- The cover features a tunnel recess to allow viewing of the operation LEDs
- Vented base and cover to allow through air flow
- Available in White, Black or Clear
